

Our Name is Our Mission

2009 ANNUAL REPORT

Dear Fellow Stockholder,

2009 proved to be an interesting year, but not as profitable as we would have liked. If ServisFirst Bancshares were an eight-cylinder engine, I would say that we were hitting on about six cylinders for most of the year.

I will cover the negatives first. On the expense side, two categories went up - FDIC premiums and credit-related expenses. FDIC premiums for all banks went up dramatically in 2009, and we have no control over that line item. Unfortunately, our stockholders are paying for the poor management of the failed banks and thrifts in the U.S. The other line item, credit-related costs, is entirely our fault. While our credit-related expenses were well below our peer group, they were high by historical standards for a well managed bank. In hindsight, we lent money to some developers and builders who had little liquidity, and I hope we remember this when the good times roll again in the building and development business.

Now let me tell you the good news of 2009. Our deposit growth was tremendous as we benefited from a "flight to quality" from customers of our stressed competitors. We were fortunate to have solid growth in new core relationships that we believe will benefit our stockholders for many years. The downside of this deposit influx is that we could not identify good loans as quickly as the deposits came in, so we had negative earnings on this growth for most of 2009.

Our Dothan Region opened its new main office in 2009, and enjoyed solid growth in 2009. In fact, our Dothan Region has the highest market share of any of our regions, with Birmingham having the lowest. If all of our regions achieve a market share of 10%, which is possible over time, we will be a \$5 billion bank with no additional geographic expansion. We are proud of our seventeen consecutive quarters of profitability, which very few of our peers can say, much less those that are less than five years old. While we have felt a little of the pain that has hit the banking industry, the opportunities that it has created for ServisFirst are greater than I would have ever imagined possible. No one could have written a book as bizarre as the true events in our industry over the past two years.

As you know, we are a public, non-traded company and file reports with the Securities and Exchange Commission like all public companies. We have made a decision not to forecast future earnings because we believe "the proof of the pudding is in the eating." While we have achieved some national recognition recently, of which we are proud, I can assure you that we are never satisfied with our performance, and all of our 160 employees will continue to work hard to build stockholder value.

Sincerely,

A handwritten signature in black ink, appearing to read "T. A. Broughton III".

Thomas A. Broughton III
Director, President and
Chief Executive Officer

CONSOLIDATED FINANCIAL HIGHLIGHTS

1. Net interest margin is the net yield on interest earning assets and is the difference between the interest yield earned on interest-earning assets and interest rate paid on interest-bearing liabilities, divided by average earning assets.
2. Efficiency ratio is the result of noninterest expense divided by the sum of net interest income and noninterest income.
3. Total stockholders' equity excluding unrealized losses on securities available for sale, net of taxes, divided by total assets.
4. Total stockholders' equity excluding unrealized losses on securities available for sale, net of taxes, and intangible assets plus allowance for loan losses (limited to 1.25% of risk-weighted assets) divided by total risk-weighted assets. The FDIC required minimum to be well-capitalized is 10%.
5. Total stockholders' equity excluding unrealized losses on securities available for sale, net of taxes, and intangible assets divided by total risk-weighted assets. The FDIC required minimum to be well-capitalized is 6%.
6. Total stockholders' equity excluding unrealized losses on securities available for sale, net of taxes, and intangible assets divided by average assets less intangible assets. The FDIC required minimum to be well-capitalized is 5%; however, the Alabama Banking Department has required that the Bank maintain a Tier 1 capital leverage ratio of 7%.
