SERVISFIRST BANCSHARES, INC.
Announces Results For Third Quarter of 2014 And Agreement to
Acquire Metro Bancshares, Inc. in Atlanta, Georgia

Birmingham, Ala. – (PR Newswire) – October 20, 2014 – ServisFirst Bancshares, Inc. (“ServisFirst”) (NASDAQ: SFBS), the holding company for ServisFirst Bank, today announced earnings and operating results for the quarter and nine months ended September 30, 2014, and simultaneously announced today the signing of a definitive agreement and plan of merger (“Agreement”) with Metro Bancshares, Inc. As discussed below, according to the terms of the Agreement, ServisFirst will acquire all of the outstanding stock of Metro Bancshares, Inc.

Third Quarter 2014 Highlights:

- **Net income for the third quarter increased 30% year over year**
- **Third quarter annualized loan and deposit growth of 14% and 25%, respectively, on a linked quarter basis**
- **Diluted earnings per share of \$0.54 for the third quarter, a 10% increase year over year**
- **25% growth in non-interest-bearing demand deposits year over year**
- **Announced acquisition of Metro Bancshares, Inc. in Atlanta**

Tom Broughton, President and CEO, said, “We are pleased with our loan and deposit growth rates of 14% and 25%, respectively.” Bud Foshee, CFO, stated, “Strong loan and deposit growth combined with excellent credit quality continue to drive our strong earnings performance.”

Acquisition Of Metro Bancshares, Inc.:

Metro Bancshares, Inc. is the holding company for Metro Bank, which operates three banking offices in the Atlanta metropolitan area. As of September 30, 2014, Metro Bank reported approximately \$223.5 million in assets, \$140.6 million in loans and \$195.9 million in deposits.

Tom Broughton, President and CEO of ServisFirst Bank, commented “Ken Barber is an outstanding banker who has been a friend for many years. We look forward to Ken and his team joining our company. This will represent a strategic merger as an entry point into the Atlanta market.”

Ken Barber, President and CEO of Metro Bank, commented “We are very excited about joining the great team that Tom has assembled at ServisFirst. The resources that will be available to us will allow our team to grow our existing business in the metro Atlanta area at a much greater rate than we could have imagined as an independent bank.”

The proposed merger of Metro Bancshares, Inc. with and into ServisFirst has been approved by the boards of directors of each company and is expected to close in the first quarter of 2015. Under the terms of the Agreement, assuming an average closing price of ServisFirst common stock of \$28.83 per share, which was the closing price of ServisFirst common stock on October 17, 2014, ServisFirst would issue approximately 636,720 shares of its common stock and pay approximately \$22,825,000 in cash, representing approximately \$41,182,000 in aggregate consideration, which includes amounts payable to Metro option and warrant holders. The actual value of the total consideration may be greater or less than such amount, depending on the actual market value of ServisFirst common stock prior to the closing. Assuming an average closing price of \$28.83 per share, the consideration to common shareholders would be approximately 52% in stock and 48% in cash, which percentages may fluctuate. Simultaneously with the closing of the transaction, Metro Bancshares, Inc. will merge with and into ServisFirst, and Metro Bank will merge with and into ServisFirst Bank. Completion of the transaction is subject to customary closing conditions, including the receipt of required regulatory approvals and the approval of Metro Bancshares, Inc.’s shareholders.

Additional information regarding the merger has been provided in a presentation available at www.sec.gov.

DETAILED FINANCIALS

ServisFirst Bancshares, Inc. reported net income of \$14.0 million and net income available to common stockholders of \$13.9 million for the quarter ended September 30, 2014, compared to net income of \$10.8 million and net income available to common stockholders of \$10.7 million for the same quarter in 2013. Basic and diluted earnings per common share were \$0.56 and \$0.54, respectively, for the third quarter of 2014, compared to \$0.51 and \$0.49, respectively, for the third quarter of 2013.

Return on average assets was 1.45% and return on average common stockholders' equity was 15.89% for the third quarter of 2014, compared to 1.31% and 18.47%, respectively, for the third quarter of 2013.

Net interest income was \$33.3 million for the third quarter of 2014, compared to \$32.0 million for the second quarter of 2014 and \$29.0 million for the third quarter of 2013. The net interest margin in the third quarter of 2014 was 3.65%, a 9 basis point decrease from the second quarter of 2014 and 4 basis point decrease from the third quarter of 2013. The increase in net interest income on a linked quarter basis is attributable to a \$99.1 million increase in average loans outstanding, a \$76.7 million increase in average non-interest-bearing deposits and a \$41.0 million increase in average stockholders' equity, all resulting in a positive mix change in our balance sheet. The lower net interest margin is primarily the result of higher balances in federal funds at other banks, which earn a lower interest rate.

Average loans for the third quarter of 2014 were \$3.09 billion, an increase of \$99.1 million, or 3%, over average loans of \$2.99 billion for the second quarter of 2014, and an increase of \$450.6 million, or 17%, over average loans of \$2.64 billion for the third quarter of 2013.

Average total deposits for the third quarter of 2014 were \$3.21 billion, an increase of \$154.4 million, or 5%, over average total deposits of \$3.06 billion for the second quarter of 2014, and an increase of \$393.8 million, or 14%, over average total deposits of \$2.82 billion for the third quarter of 2013.

The Company's asset quality remained strong in the third quarter of 2014. At September 30, 2014, non-performing assets to total assets were 0.61%, an increase of 0.08% compared to the first two quarters of 2014. Net credit charge-offs to average loans were 0.17%, a 0.01% increase from the second quarter of 2014 and unchanged compared to the first quarter of 2014. We recorded a \$2.7 million provision for loan losses in the third quarter of 2014 compared to \$2.4 million in the second quarter of 2014 and \$3.0 million in the third quarter of 2013. Growth in loans and improving credit quality has resulted in our loan loss reserve as a percent of loans remaining relatively stable, increasing one basis point to 1.09% at September 30, 2014 as compared to 1.08% for June 30 and March 31, 2014. In management's opinion, the reserve is adequate and was determined by consistent application of ServisFirst Bank's methodology for calculating its reserve for loan losses.

Non-interest income increased \$737,000 during the third quarter of 2014, or 32%, compared to the third quarter of 2013. Deposit service charges increased by \$349,000, or 42%, resulting from an increase in the number of accounts and transactions. Increases in the cash surrender value of our life insurance contracts resulted from added investments in contracts during the third quarter of 2014.

Non-interest expense for the third quarter of 2014 increased \$3.2 million, or 27%, to \$15.3 million from \$12.1 million in the third quarter of 2013. Salary and benefit expense for the third quarter of 2014 increased \$842,000, or 12%, to \$7.9 million from \$7.0 million in the third quarter of 2013, and decreased \$1.2 million, or 13%, on a linked quarter basis. Included in salary and benefit expense for the first and second quarters of 2014 are non-routine expenses of \$703,000 and \$1.8 million, respectively, resulting from a correction of our accounting for vested stock options previously granted to members of our advisory boards in our markets. This expense impacted our diluted earnings per share for the first and second quarters of 2014 by \$0.02 and \$0.05, respectively. We historically accounted for these options under the provisions of FASB ASC 718-10, Compensation – Stock Compensation, and now have determined to recognize as an expense the fair value of these vested options in accordance with the provisions of the FASB ASC Topic 505-50, Equity-Based Payments to Non-Employees. The change in accounting treatment is a non-cash item and does not impact the Company's operating activities or cash from operations. Other operating expense for the third quarter of 2014 increased \$1.9 million, or 73%, to \$4.4 million from \$2.5 million in the third quarter of 2013. This was primarily the result of write downs of investments in tax credit partnerships of \$1.4 million for the third quarter of 2014 compared to \$53,000 in the same quarter in 2013. We recognized tax credits of \$1.9 million during the third quarter of 2014 from these investments.

GAAP Reconciliation and Management Explanation of Non-GAAP Financial Measures

As discussed in more detail in the section titled "Detailed Financials," we recorded a non-routine expense of \$703,000 for the first quarter of 2014 resulting from the correction of our accounting for vested stock options previously granted to members of our advisory boards in our Dothan, Huntsville and Montgomery, Alabama markets, and we recorded a non-routine expense of \$1.8 million for the second quarter of 2014 resulting from a correction of our accounting for vested stock options previously granted to members of our advisory boards in our Mobile, Alabama and Pensacola, Florida markets. This change in accounting treatment is a non-cash item and does not impact our operating activities or cash from operations. The non-GAAP financial measures included in this press release of our results for the third quarter of 2014 and the first nine months of 2014 are "core net income," "core net income available to common stockholders," "core diluted earnings per share," "core return on average assets" and "core return on average common stockholders' equity." Each of these five core financial measures excludes the impact of the non-routine expense attributable to the correction of our accounting for vested stock options. None of the other periods included in this press release are affected by this correction.

"Core net income" is defined as net income, adjusted by the net effect of the non-routine expense.

"Core net income available to common stockholders" is defined as net income available to common stockholders, adjusted by the net effect of the non-routine expense.

“Core diluted earnings per share” is defined as net income available to common stockholders, adjusted by the net effect of the non-routine expense, divided by weighted average diluted shares outstanding.

“Core return on average assets” is defined as net income, adjusted by the net effect of the non-routine expense, divided by average total assets.

“Core return of average common stockholders’ equity” is defined as net income, adjusted by the net effect of the non-routine expense, divided by average common stockholders’ equity.

We believe these non-GAAP financial measures provide useful information to management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with GAAP; however, we acknowledge that these non-GAAP financial measures have a number of limitations. As such, you should not view these disclosures as a substitute for results determined in accordance with GAAP, and they are not necessarily comparable to non-GAAP financial measures that other companies, including those in our industry, use. The following reconciliation table provides a more detailed analysis of the non-GAAP financial measures for the nine months ended September 30, 2014 and the three month period ended June 30, 2014.
