DETAILED FINANCIALS

ServisFirst Bancshares, Inc. reported net income and net income available to common stockholders of \$36.2 million for the quarter ended December 31, 2018, compared to net income of \$21.2 million and net income available to common stockholders of \$21.1 million for the same quarter in 2017. Basic and diluted earnings per common share were \$0.68 and \$0.67, respectively, for the fourth quarter of 2018, compared to \$0.40 and \$0.39, respectively, for the fourth quarter of 2017.

Return on average assets was 1.85% and return on average common stockholders' equity was 21.13 for the fourth quarter of 2018, compared to 1.20% and 13.97%, respectively, for the fourth quarter of 2017.

Net interest income was \$68.9 million for the fourth quarter of 2018, compared to \$66.9 million for the third quarter of 2018 and \$61.4 million for the fourth quarter of 2017. The net interest margin in the fourth quarter of 2018 was 3.63% compared to 3.77% in the third quarter of 2018 and 3.66% in the fourth quarter of 2017. Loans of \$16.7 million were added to nonaccrual status during the fourth quarter of 2018 resulting in the reversal of \$390,000 in interest income. Linked quarter increases in average rates paid on deposits in excess of increased average yields on loans drove unfavorable mix change, while increases in average balances in loans, non-interest bearing deposits and equity drove favorable volume change and overall change.

Average loans for the fourth quarter of 2018 were \$6.43 billion, an increase of \$199.4 million, or 3%, over average loans of \$6.23 billion for the third quarter of 2018, and an increase of \$715.6 million, or 13%, over average loans of \$5.72 billion for the fourth quarter of 2017.

Average total deposits for the fourth quarter of 2018 were \$6.74 billion, an increase of \$403.5 million, or 6%, over average total deposits of \$6.33 billion for the third quarter of 2018, and an increase of \$702.4 million, or 12%, over average total deposits of \$6.03 billion for the fourth quarter of 2017.

Non-performing assets to total assets were 0.41% for the fourth quarter of 2018, an increase of 14 basis points compared to 0.27% for the third quarter of 2018 and an increase of 16 basis points compared to 0.25% for the fourth quarter of 2017. \$10.4 million of the previously mentioned \$16.7 million of loans added to nonaccrual status were classified as accruing TDRs at September 30, 2018. Net credit charge-offs to average loans were 0.30%, a five basis point increase compared to 0.25% for the third quarter of 2018 and a decrease of 26 basis points compared to 0.56% for the fourth quarter of 2017. Year-to-date net credit charge-offs to average loans were 0.20%, a nine basis point decrease compared to 0.29% for the same period in 2017. We recorded a \$6.5 million provision for loan losses in the fourth quarter of 2018 compared to \$6.6 million in the third quarter of 2018 and \$9.1 million in the fourth quarter of 2017. The allowance for loan loss as a percentage of total loans was 1.05% at December 31, 2018 compared to 1.05% at September 30, 2018 and 1.02% at December 31, 2017. In management's opinion, the allowance is adequate and was determined by consistent application of ServisFirst Bank's methodology for calculating its allowance for loan losses.

Non-interest income increased \$712,000 during the fourth quarter of 2018, or 15%, compared to the fourth quarter of 2017. Deposit service charges increased \$215,000 in the fourth quarter of 2018, or 14%, compared to the fourth quarter of 2017. The number of transaction deposit accounts increased approximately 8% from December 31, 2017 to December 31, 2018, and the amount of overdraft fees increased \$175,000, or 24%, from the fourth quarter of 2017 to the fourth quarter of 2018. Mortgage banking revenue decreased \$206,000, or 23%, from the fourth quarter of 2017 to the fourth quarter of 2018. Increases in market rates have slowed originations and refinancing activity during 2018. Credit card revenue increased \$695,000, or 54%, to \$2.0 million during the fourth quarter of 2018, compared to \$1.3 million during the fourth quarter of 2017, driven by increased numbers of accounts and increased purchases per account.

Non-interest expense for the fourth quarter of 2018 increased \$2.0 million, or 9%, to \$23.3 million from \$21.3 million in the fourth quarter of 2017, and increased \$149,000, or 1%, on a linked quarter basis. Salary and benefit expense for the fourth quarter of 2018 increased \$953,000, or 8%, to \$12.4 million from \$11.4 million in the fourth quarter of 2017, and decreased \$685,000, or 5%, on a linked quarter basis. The linked-quarter decrease resulted from a \$815,000 reversal of incentive bonuses in December 2018 that were accrued during the first eleven months of 2018. The number of FTE employees increased from 428 at December 31, 2017 to 468 at December 31, 2018, or 9%. Equipment and occupancy expense increased \$597,000, or 38%, to \$2.2 million in the fourth quarter of 2018, from \$1.6 million in the fourth quarter of 2017, and decreased \$30,000 on a linked-quarter basis. Other operating expense for the fourth quarter of 2018 increased \$526,000, or 8%, to \$6.8 million from \$6.2 million in the fourth quarter of 2017, and increased \$690,000, or 11%, on a linked-quarter basis. During the fourth quarter of 2018 we recognized a \$250,000 charge related to a wire fraud. The efficiency ratio improved to 31.28% during the fourth quarter of 2018 from 32.05% during the fourth quarter of 2017 and from 31.95% on a linked quarter basis.

Income tax expense decreased \$6.4 million, or 43%, to \$8.4 million in the fourth quarter of 2018, compared to \$14.9 million in the fourth quarter of 2017. We recognized \$3.1 million of additional tax expense during the fourth quarter of 2017 as a result of revaluing our net deferred tax assets as of December 31, 2017 in connection with the Tax Cuts and Jobs Act passed into law in December 2017. Lower corporate income tax rates resulting from the passage of this law have resulted in lower effective tax rates starting in 2018. We also recognized a reduction in provision for income taxes resulting from excess tax benefits from the exercise and vesting of stock options and restricted stock during the fourth quarters of 2018 and 2017 of \$1.5 million and \$351,000, respectively.

GAAP Reconciliation and Management Explanation of Non-GAAP Financial Measures

We recorded \$3.1 million of additional tax expense as a result of revaluing our net deferred tax assets at December 31, 2017 due to lower corporate income tax rates provided by the Tax Cuts and Jobs Act passed into law in December 2017. During the fourth quarter of 2017 we also recorded expenses of \$347,000 related to terminating the lease agreement on our previous headquarters building in Birmingham, Alabama and expenses of moving into our new headquarters building. Financial measures included in this press release that are presented adjusted for these non-routine expenses are net income, net income available to common stockholders, diluted earnings per share, return on average assets and return on average common stockholders' equity. Each of these five financial measures excludes the impact of the non-routine expenses attributable to our net deferred tax asset revaluation, lease termination and moving expenses, and are all considered non-GAAP financial measures. In addition to these financial measures adjusted for non-routine expenses, this press release contains certain non-GAAP financial measures, including tangible common stockholders' equity, total tangible assets, tangible book value per share and tangible common equity to total tangible assets, each of which excludes goodwill and core deposit intangibles associated with our acquisition of Metro Bancshares, Inc. in January 2015. We believe these non-GAAP financial measures provide useful information to management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with GAAP; however, we acknowledge that these non-GAAP financial measures have a number of limitations. As such, you should not view these disclosures as a substitute for results determined in accordance with GAAP, and they are not necessarily comparable to non-GAAP financial measures that other companies, including those in our industry, use. The following reconciliation table provides a more detailed analysis of the non-GAAP financial measures as of and for the comparative periods presented in this press release.
